

Description

If you're looking for a way to efficiently heat your patio or outdoor space then we've got just the solution for you. Italian design and innovation combine to provide efficient infrared heating suitable for indoor or outdoor use.

The Jigsaw IR Power Heater is a far infrared heater with modern lines, Italian design and EU build quality; perfect for an environment characterised by elegance and innovation. We have four different versions available for any outdoor or indoor solution and a set of accessories for any type of installation. Available in either Ebony or Silver, the anodised aluminium body guarantees efficient infrared heating whilst the external finish provides a unique identity and style.
